

Breeder Contract for:

Bengal Kitten Born:

Sire:

Dam:

Litter Registration No:

Colour:

1. Buyer agrees to provide food, shelter, healthy and stimulating environment, correct routine and accident related medical attention, exercise and affection. It is agreed that this cat will not be allowed outside without supervision.
2. This animal is a purebred Bengal Cat and a four generation pedigree will be provided. Novice buyers will be mentored to ensure proper procedures in the breeding of said cat, for it's protection and the integrity of the Bengal breed.
3. Said cat is guaranteed to be free from congenital defects and genetic disease for a period of two years from date of sale. Cat is guaranteed to be of acceptable temperament although buyer is responsible to ensure adequate socialization.
4. In the event that this cat is found to have a congenital defect/disease:
 - It can be returned to breeder for a replacement of equal quality
 - It can be kept by the owner, and upon proof of spaying, a refund of 50% of the purchase price will be credited towards another kitten of the same quality
 - No refund or replacement will be given for any cat that has been bred or produced a litter (purebred or otherwise). If there is a question of whether the cat has been used for breeding, buyer agrees to grant breeder full access to all veterinary records.
 - If the cat is to be returned to breeder, all shipping related expenses will be covered by the returnee. A portion of the original purchase price will also be retained for current FELV/FIV bloodwork.
5. It is agreed that no kittens from said cat will be sold to animal brokers, pet shops or their agents. All kittens will be sold with registration papers, health guarantee and cannot be sold in "litterlots". The cat is never to be bred to an unregistered or mixed breed cat. If such a breeding takes place, the cat and all kittens will be surrendered to breeder.
6. Cat cannot be sold or leased to a third party at any time. Should it become necessary to part with this cat, buyer agrees to give breeder first opportunity to purchase at the original price less 20%, or return the cat for another kitten once the timing is more suitable for the purchaser to house a cat. If option is waived by Donna Clayton, buyer agrees to notification of where and with whom the cat will reside. No adult breeding cats will be placed or sold as breeders, but will be altered beforehand by buyer, once the buyer is finished with said cat in their breeding program.

7. SBT generation cats are guaranteed to be fertile as adults, given sufficient time and opportunity. Should there be any question as to the fertility of said cat, breeder has the right to have full written explanation by a licensed veterinarian. Once done, buyer is responsible to alter existing cat and place it in a suitable loving pet home and a replacement kitten will be offered as available by the breeder.

8. This cat has been determined by the breeder to possess qualities or pedigree beyond the definition of PET. The said kitten has been deemed to be of either breeder or show/breed quality. Seller agrees to provide a bengal kitten of breeder and/or show/breeder quality. No guarantee is given regarding championship recognition of the said kitten.

9. The purchase price of said cat is _____ plus expenses with regards to shipping, microchipping, rabies vaccination, international health certificate and cat carrier. Full breeding rights are included in this price. Full titles and ownership of cat will be transferred to buyer within three months of purchase.

10. If this cat is purchased as a breeder male, Purchaser agrees not to use this cat for outside stud service, unless permitted by Seller.

Signing indicates agreement to all points indicated above. Breach of contract will result in cancellation, and in turn, repossession of the cat by the breeder, without compensation.
